Artificial Enhancements

Dubl Digits is committed to quality and by using the best products in the industry, we strive to keep up with the latest trends. Most of all we use acrylic and gel that is of high quality. We use gel (not gel powder added to acrylic powder) to do gel nails, that cure under a light during every step. This process does take longer as it tends to be a little more tricky. Though the end result is a beautiful display for your hands. If we were a client, we would come here. Dubl Digits believes that you, as a customer, deserves the very best. We want you to leave feeling relaxed, not rushed, and proud of your nails, every time. When scheduling an appointment, please tell us if you would like to have French tips.

Sea Escape Stone Facial and Body Therapy

The Sea Escape Stone Facial and Body Therapy is unlike any other stone therapy, because it creates a yin-yang balance throughout your body by utilizing both hot and cold Sea Stones **90 min/\$120**

- During this 90 minute treatment, various sized stones that also vary in temperature are used as massage implements and are placed on key pressure points on your body to relieve tension.
- The Sea Stones are used in conjunction with reflexology and lymphatic drainage for complete face and body relief. The treatment begins by placing a large Sea Stone on the abdomen, or as we like to refer to it, your yoga, to allow you to focus on your breathing.
- This treatment follows by placing hot basalt stones, rich in iron, on your meridian points, including your underarms, chest, hands, and knees. Warm facial stones are then used to cleanse your skin, loosening debris and emulsifying oil.
- At the same time, a relaxing foot and hand treatment release tension, stress, and improves overall well-being.
- Cold Sea Stones are then followed by a cold French Seaweed Mask and cold eye contour therapy to reduce puffy eyes.
- Finally, a hot mineral mask allows for total penetration of the layers of fresh European Seaweed products to rejuvenate, tone and firm the skin for dramatic and long-term results.
